

## Mona Eghanian

Assistant Vice-President  
OVIN

Mona Eghanian

Mona Eghanian is a distinguished leader in the automotive and mobility sector, currently serving as Assistant Vice-President at the Ontario Centre of Innovation, and as the Deputy Head of the Ontario Vehicle Innovation Network (OVIN), the Government of Ontario's flagship initiative on the future of automotive and mobility.

With a rich background in strategy development, technology transformation, and data insights, Mona also brings significant experience from the financial services and industrial manufacturing industries.

Her leadership has been pivotal in driving commercialization programs to catalyze the growth of innovative, Ontario-made automotive technologies and solutions, as well as in initiating strategies to cultivate a future-ready workforce set to meet the sector's evolving demands. Through her leadership on key programs and initiatives around research and development, piloting and demonstration, and talent development, Mona ensures that through OVIN, Ontario remains at the forefront of fostering safer, cleaner, and more efficient transportation solutions, thereby driving economic growth, and solidifying its position as a global leader in automotive and mobility innovation.

Mona is a chemical engineer by trade and a member of the Professional Engineers of Ontario. She holds a Bachelor of Engineering from Western University and an MBA from the Richard Ivey School of Business.
